You gave 3 name options and the founders' names: דוד.

We computed each option: turned it into Hebrew letters, added them up into a number, found the Torah word with that number, the Torah page, and the books that mention the number. Then we looked at what each option shares with your names and with the date. The result comes first, then each option on its own.

What happens there

"And God said, Let there be light. And there was light." "Or" is light, the first thing to appear in creation, before the sun and stars. Light does not solve everything, but it makes everything visible. Then God sees that the light is good and separates it from the darkness. A family might consider what became its first light, a first meeting, a first word, a first home, and how that light goes on illuminating all it builds afterward.
